**CLARIFICATION OF PREVIOUSLY SUBMITTED 1449 FORM**

On January 5, 2007, Applicants filed an information disclosure statement and PTO form 1449, which was missing the publication information for three cited references.

Specifically, under "NON PATENT LITERATURE DOCUMENTS" on form 1449, the publication date for reference nos. 6-8 should be "January 1, 1998".

Even though these references have been initialed by the Examiner and entered in this case, Applicants are submitting a new 1449 form to clarify the publication information for the record. No new material is being added.

Applicants are also submitting additional Japanese references at this time for the Examiner's consideration.

No inference should be drawn that the attached list sets forth a comprehensive investigation of the prior art, that any or all are pertinent to the invention, or that any apparatus disclosed is equivalent to the subject invention.

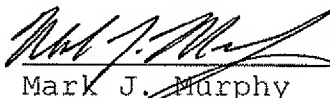

The citation of the above-discussed documents is not to be construed as an assertion that more pertinent art could not possibly be in existence. Citation of any document herein is not to be construed as an admission that any subject matter disclosed in the document is necessarily within the inventive field of endeavor, that any disclosure is necessarily prior in time to a particular date which may be relevant to the instant patent application, and/or that any disclosure is otherwise necessarily prior art with respect to the instant invention.

Applicant also respectfully reserves the right to later set forth how the instant invention is distinguished over the disclosure of any document or other art, including the disclosure of those documents discussed herein, that may be cited by the Examiner in rejecting a claim in the instant patent application.
